

MILLENNIUM
COATINGS

Environment Policy

Policy Statement:

Millennium Coatings Ltd acknowledges that its processes could have a potential affect on the environment and therefore recognise its responsibility and obligation to preventing pollution and to minimise any impact.

Commitment:

The company is committed to:

- Reviewing and understanding the current and potential impact of its activities, products and services on the environment
- Complying with all current applicable and relevant environmental laws, regulations and codes of practice
- Ensuring this Policy is understood, implemented and maintained by all individuals in the company
- Raising environmental awareness for all employees, encouraging involvement and giving support through suitable education and training in environmental matters as required
- Reducing pollution, optimise recycling and using energy and natural resources more efficiently
- Monitoring and continually improving the activities impacting on the environment and the performance of the internal Environmental controls
- Openly communicating progress in reducing the environmental impact to any interested parties and responding appropriately to reasonable requests for information
